

Cutting and grinding discs

Cibo is launching a complete line of cutting and grinding discs of the highest quality! Thanks to its many years' experience and the extended knowledge Cibo now possesses in relation to technical abrasive granules, special resins and bonds for working many types of steel, stainless steel in particular, Cibo has again succeeded in launching an exceptionally strong cutting and grinding disc line on the market. This exclusive disc line with its unique composition guarantees extraordinary cutting and grinding performances at all times. Have a look at the TOP-LINE and STANDARD LINE cutting discs and the TOP-LINE grinding discs!

Top-line cutting discs

These now legendary discs have an extremely long life and cut like lightning. With these two undeniable advantages the superior TOP-LINE discs leave all their competitors trailing in their wake, both in terms of speed and product lifespan. Because these discs do not contain any iron or sulphates, they are perfectly suited to the almost burr-

free cutting of stainless steel. In short, these are discs for the most demanding user, for whom the best is not good enough. With our TOP-LINE you get the fastest and most durable discs in one swoop. Choose the best discs on the market and you are choosing to improve the comfort of your employees and manage your company's costs.

Dimensions	Form	Max. rpm.	Areas of application	Item nr.	Number
100 x 1 x 22,23		13 300	Stainless steel/steel	SNIN100	25

115 x 1,6 x 22,23		13 300	Stainless steel/steel	SNIN1156	25
125 x 1 x 22,23		12 200	Stainless steel/steel	SNIN1250	25
125 x 1,6 x 22,23		12 200	Stainless steel/steel	SNIN1256	25
180 x 2 x 22,23		8 500	Stainless steel/steel	SNIN180	25
230 x 2 x 22,23		6 600	Stainless steel/steel	SNIN230	25
230 x 2,5 x 22,23		6 600	Stainless steel/steel	SNIN23025	25

Top-line grinding discs

These grinding discs of excellent quality complete the line. The secret behind these TOP-LINE grinding discs is the unique composition of the bond. Tests have indicated that the Cibo grinding discs allow for the processing of a significantly higher amount of material in a shorter period of time, based on which the discs offer a fantastic price/

quality ratio. The discs' soft bond ensures a high level of aggressiveness as well as making them very user friendly, because vibrations in the material are reduced to a minimum. Try the TOP-LINE grinding discs and allow yourself to be convinced by the speed, comfort and lower grinding costs!

Dimensions	Form	Max. rpm.	Areas of application	Item nr.	Number
115 x 6,5 x 22,23		13 300	Stainless steel/steel	SLIN115	10
125 x 6,5 x 22,23		12 200	Stainless steel/steel	SLIN125	10
180 x 7 x 22,23		8 500	Stainless steel/steel	SLIN180	10
230x 7 x 22,23		6 600	Stainless steel/steel	SLIN230	10

Standard-line cutting discs

With these discs, Cibo has redefined the industrial standard for cutting discs. These unbreakable discs for cutting steel, iron and stainless steel stand alone on the market with its unbeatable price. With an unparalleled price/quality

ratio, the STANDARD-LINE rises head and shoulders above the competition. Never before has an industrial disc been so keenly priced.
